### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Wagner on May 15, 2007.

2. The instant amendment is directed to the claim amendment filed March 02, 2007, which has been entered.

#### **The application has been amended as follows:**

3. Delete claims 2 and 12.

#### **IN THE CLAIMS**

4. Claim 1, line 13, **delete** "and".
5. Claim 1, lines 14-16, delete "causing said first resource to discontinue providing said service after said available resource completes existing service requesters originally intended for said first resource.", **insert therefor**

-- wherein said automatically performing said new modification includes:

selecting said available resource of said particular type from said resource pool to replace said first resource of said particular type, wherein said performing of said new modification to said configuration state of said available resource of said particular type is enabled;

configuring said available resource to provide said service provided by said first resource of said particular type, wherein said re-directing of said new requests for said service provided by said first resource to said available resource is enabled;

causing said first resource to discontinue providing said service after said available resource completes existing service requests originally intended for said first resource; and

performing said new modification to a configuration state of said first resource, wherein said first resource represents another available resource from said resource pool.—

6. Claim 11, line 14, **delete** “and”.

7. Claim 11, lines 15-17, **delete** “causing said first resource to discontinue providing said service after said available resource completes existing service requesters originally intended for said first resource.”, **insert therefor**

-- wherein said automatically performing said new modification includes:

selecting said available resource of said particular type from said resource pool to replace said first resource of said particular type, wherein said performing of said new modification to said configuration state of said available resource of said particular type is enabled;

configuring said available resource to provide said service provided by said first resource of said particular type, wherein said re-directing of said new requests for said service provided by said first resource to said available resource is enabled;

causing said first resource to discontinue providing said service after said available resource completes existing service requests originally intended for said first resource; and

performing said new modification to a configuration state of said first resource, wherein said first resource represents another available resource from said resource pool.—

8. Claim 21, line 15, **delete** “and”.

9. Claim 21, lines 16-18, **delete** “causing said first resource to discontinue providing said service after said available resource completes existing service requesters originally intended for said first resource.”, **insert therefor**

-- wherein said automatically performing said new modification includes:

selecting said available resource of said particular type from said resource pool to replace said first resource of said particular type, wherein said performing of said new modification to said configuration state of said available resource of said particular type is enabled;

configuring said available resource to provide said service provided by said first resource of said particular type, wherein said re-directing of said new requests for said service provided by said first resource to said available resource is enabled;

causing said first resource to discontinue providing said service after said available resource completes existing service requests originally intended for said first resource; and

performing said new modification to a configuration state of said first resource, wherein said first resource represents another available resource from said resource pool.--

### **REASON FOR ALLOWANCE**

10. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest the claimed invention individually or in combination the limitation of

“wherein said automatically performing said new modification includes: selecting said available resource of said particular type from said resource pool to replace said first resource of said particular type, wherein said performing of said new modification to said configuration state of said available resource of said particular type is enabled;

configuring said available resource to provide said service provided by said first resource of said particular type, wherein said re-directing of said new requests for said service provided by said first resource to said available resource is enabled;

causing said first resource to discontinue providing said service after said available resource completes existing service requests originally intended for said first resource; and

performing said new modification to a configuration state of said first resource, wherein said first resource represents another available resource from said resource pool”, as set forth in claims 1, 11, and 21, respectively.

11. Dependent claims 3-10, 13-20, and 22-28 being further limiting to the independent claim claims 1, 11, and 21, respectively, definite, and enabled by the specification are also allowed.

12. The closest prior art, Golson et al. (US 5761505 A) in view of Thompson et al. (US 5247664 A) describes a method a method of managing modification of configuration states of a plurality of resources of multiple types in a dynamic data center. However, Golson et al. (US

5761505 A) in view of Thompson et al. (US 5247664 A) does not teach or suggest the limitations cited above as being free of any prior art when read in the claims as a whole.

### **CONCLUSION**

13. Claims 1, 3-11, and 13-28 (renumbered as 1-26) are allowed.

14. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

15. Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.
